*****REVISED*****

2H Recognizing Clandestine Drug Lab Awareness

This awareness level course will provide first responders with information that would help identify situations that may involve an illegal drug manufacturing operation. The manufacturing of drugs such as Meth-Amphetamines uses a wide variety of hazardous materials and poses special risks from fire and explosion when being cooked. Labs are being discovered in residential dwellings, garages, basements, motel rooms, and other unsuspecting locations. This course will provide participants with information as to what materials could indicate the presence of illicit operations and some of the special risks associated with the making of the drug along with appropriate procedures to be considered for the safety of responders

Designed For: All first response personnel

Course Length: 3 hours

Will be held at the Wyoming County Fire Training Center on the following date:

Monday, February 27, 2012 @ 6:30 P.M.

INSTRUCTOR: Office of Fire Prevention & Control

****Must RSVP by Submitting Training Authorization Letter**
